HYOMEI RECORD BREAKER.

Novel Method of Curing Catarrh. Sold On Approval by Clarke & Co.

The popularity and remarkable sale of Hyomei have broke all records. In nearly every city and town in the country, this guaranteed cure for catarrh has given most astonishing results.

The leading druggists are so enthusiastic over the remarkable percentage of cure following the use of Hyomei, that with hardly an exception, they advertise to their customers that Hyomei will be sold with the understanding that it costs nothing unless it cures.

In Paris, Clarke & Co. are endorsing it and guaranteeing to refund the money unless Hyomei cures catarrh. They have sold a great many Hyomei outfits, and today, no other treatment for the cure of catarrh has as many friends in Paris and vicinity as Hyomei.

It is a scientific, yet common sense method of treating and curing this too common disease. It sends by direct inhalation to every cell of the air passages in the head throat and lungs, a balsamic air that destroys all catarrhal germs, purifies the blood with additional ozone and makes a complete and lasting cure of any catarrhal trouble.

The complete outfit costs but \$1 and includes an inhaler, medicine dropper and sufficient Hyomei for several weeks' treatment.

You take no risk in buying Hyomei. Clarke & Co. positively guarantee to refund your money unless it cures.

FREE RECLINING CHAIR CARS.

"The Henderson Route"—Always First. The traveling public will be pleased to learn of the latest innovation in the way of comfort in travel for its patrons which is now being offered by that most popular railroad, the "Henderson Route," which road has been rightly termed the "Kentuckian's Official Route to the West and Southwest."

It has just been announced from the general office of the Louisville, Henderson & St. Louis Railway that they now have in service on their night trains between Louisville and St. Louis, Free Reclining Chair Cars, which have just been received from the shops and are a revelation in the car builder's art.

The cars are strictly up-to-date, first-class "palaces of travel" on wheels, and this is only one of the many surprises which are promised the public for the World's Fair travel by the Henderson Route.

Among other advantages offered in these highly finished cars, a few of the most important points only are mentioned:

They are solidly vestibuled and are furnished with six-to-four reclining chairs, which are upholstered in beautiful green plush, in addition to smoking and toilet rooms, the smoking rooms being finished throughout in leather. They are also fitted up with triple trucks, which feature will do away with the jerk, jar and strain incident to travel in the ordinary railway coach, and insures a smooth, comfortable ride. This should prove more than a popular feature in train service to the traveling public, and you can only suggest that in traveling you "get the Henderson Route" habit.

THE RUSSIAN ARMY.

The Main Body of Concentrated Forces Cross the Yalu.

Last Bombardment of Port Arthur Rendered Every Part of the Fortress Unsafe—Many Buildings Were Destroyed.

London, March 15.—A correspondent of the Daily Mail at New Chwang says that after the removal of the battleship Retvizan four Russian steamers, the Harbin, the Hallar, the Ninguta and the Sungari were anchored at the mouth of the entrance to Port Arthur in proper position and sunk, leaving only a small channel available. Vice Adm. Makaroff having previously ordered the whole fleet to remain outside with steam up, economy in coal being unnecessary. This dispatch, which is prominently displayed by the Daily Mail, and which the correspondent says is "on Russian information" is, if true, news of the first impor-

tance, confirming the idea that Vice Adm. Makaroff will adopt the offensive and make a desperate attempt to bring together Russia's scattered naval forces or endeavor to inflict damage upon the Japanese navy. The story must, however, be viewed cautiously, the only approach to confirmation from any other quarter being in a dispatch from a correspondent of the Daily Telegraph at Yin Kow, which merely says:

"Vice Adm. Makaroff has issued orders to the effect that the saving of coal is unnecessary, but that the big gun ammunition in the forts must not be wasted. Evidently this ammunition is running short."

It is a subject of unceasing remark and conjecture that nothing has been heard of the Vladivostok squadron and it is beginning to be believed that it is really inside the harbor of Vladivostok.

The Standard's Tokio correspondent says that according to a dispatch from Gensan, the Russians are believed to be withdrawing from the northeast frontier of Korea and concentrating at Vladivostok.

St. Petersburg, March 16.—From the highest official quarter a press representative has received information that there is absolutely no foundation for the rumors persistently sent out from Tokio that the Russians are abandoning Port Arthur. "It is the veriest nonsense," said the official informant. "Nothing has occurred there to warrant such reports. The Japanese fleet has not been seen for 48 hours. The motive of the government at Tokio in spreading this story is probably to influence public feeling in Japan for the purpose of creating enthusiasm while a war loan is being floated."

The newspapers here manifest the greatest indignation over the report, the Boerse Gazette characterizing it as outrageous and a British invention. Attention is redirected to the order of the day issued by Lieut. Gen. Stoessel, commandant at Port Arthur, in which he declared that place would never be surrendered as representing the Russian position.

London, March 16.—According to a

The Russian Baltic Squadron. Paris, March 17.—The Echo de Paris publishes a dispatch from its St. Petersburg correspondent which says that the idea of the Russian Baltic squadron going to the far east by the northeast passage has been given up as too risky.

Japan Will Spend Millions on War. London, March 17.—The Tokio correspondent of the Reuter Telegram Co. wires that the Japanese war expenditure from the outbreak of hostilities till the end of December, 1904, is estimated at \$265,000,000.

correspondent of the Daily Mail at New Chwang, Gen. Kuropatkin has wired Lieut. Gen. Stoessel that he must hold Port Arthur with the present garrison.

While there is no actual news from the theater of war, rumors are plentiful. The Daily Express correspondent at Berlin gives an alleged official intimation from the Russian ambassador, Count Osten-Sacken, that Vice Adm. Makaroff has mined all the coast of the peninsula of Port Arthur, the situation of the mines extending three miles seaward.

A correspondent of the Daily Telegraph at Yin Kow says that the Japanese army attacked Port Arthur on March 12 as a challenge for Vice Adm. Makaroff to come out and fight. During the heavy bombardment the correspondent says the Japanese were in a position of safety from the guns of the fortress. The Russian casualties amounted to 300 killed or wounded.

Yin Kow, March 17.—The only reliable reports at the present moment from the main Manchurian cities show a quiet movement along the railway and such cities as Mukden, which are off the main line, are undisturbed. The people here are not in possession of definite news of outside events.

NEW PENSION RULING.

Most Important Order Promulgated For Some Time.

The New Arrangement Will Save Both Time and Money to the Government as Well as the Soldiers.

Washington, March 17.—Commissioner of Pensions Ware, with the approval of Secretary Hitchcock, Wednesday promulgated the most important pension ruling that has been issued in a long time. It directs that beginning April 13 next, if there is no contrary evidence and all other legal requirements have been met, claimants for pension under the general act of June 27, 1890, who are over 62 years old shall be considered as disabled one-half in ability to perform manual labor and shall be entitled to \$6 a month; over 65 years, to \$8; over 68 years, to \$10, and over 70 to \$12, the usual allowances at higher rates continuing for disabilities other than age.

The order itself is preceded by a preamble which, after citing the law, says the pension for the bureau has established with reasonable certainty the average nature and extent of the infirmity of old age; that 39 years after the Mexican war congress in 1837 placed on the pension roll all Mexican war soldiers who were over 62 years old.

Commissioner Ware, just before leaving for a trip south for his health, spoke as follows regarding the order, which he said would save both the old soldiers and the government and a great deal of money and time.

"There has long been in the bureau a rule fixing a maximum age limit at 75 years. This was made during Mr. Cleveland's administration by Commissioner Lochren, now federal judge in Minnesota.

"It would seem that if 39 years after the expiration of service a Mexican war soldier was entitled to a pension at 62 years and no other requisite for drawing a pension should exist except age, that to soldiers of the civil war who fought vastly more and longer at least as good a rule ought to apply.

"There is an advantage and saving to the government in the use of this order because every old soldier who has reached the age of 62 years is able to prove almost without possibility of doubt that he is one-half disabled from earning his support by manual labor. This being so, it seems unwise to put a soldier to the expense of time and transportation to go to a place where a medical board can examine him to find that fact out, and on the other hand, it seems unnecessary for the government to keep the boards established and then pay \$6 for the examination of a soldier when the result of the examination can be so accurately foretold.

"I am of the opinion that this order will save the government a good deal of money. Of the two hundred thousand examinations in the last year, if one-fourth of them were saved it would make \$300,000, and perhaps an equal amount in time and transportation to the old soldiers who would have to go and be examined."

IROQUOIS THEATER HORROR.

The One Unidentified Victim in the Morgue May Be Identified.

Chicago, March 17.—It is believed by the police that the one remaining unidentified victim of the Iroquois theater fire may be identified through a letter which was received at police headquarters Wednesday afternoon. Relatives of Mme. Fannie Norelli, a Swedish soprano soloist, who is thought to have attended the theater on the afternoon of the fire, have asked that an investigation be made, and their description of the missing woman tallies in some respects with the body of the woman now in the morgue.

THE UNION LABEL.

Many Rochester Clothing Manufacturers Discard Its Use.

Rochester, N. Y., March 17.—The use of the union label has been discontinued by more than 30 of the large wholesale clothing manufacturing firms of this city. The manufacturers say that they are disgusted at the attitude of the unions and refuse to be dictated to any longer. They claim that their customers demand goods without the label on them.

A NEW DEPARTURE.

Hand or Tourist Cameras Will Be Permitted on World's Fair Grounds.

St. Louis, March 17.—It was announced Wednesday that hand or tourist cameras, not mounted on tripods, are to be allowed on the World's fair grounds without charge and unlimited snapping of buildings, exhibits and persons will be permitted by the exposition officials. This is a departure from the rule at previous expositions.

Sues For the Reward.

St. Louis, March 17.—Regulo Echeverria, a citizen of Guadalupe, Mex., entered suit in the St. Louis circuit court for the reward of \$800 offered by the officials for information which would lead to the arrest of Charles Kratz.

Premiums For Pure Bred Cattle.

St. Louis, March 17.—President D. R. Francis, of the World's fair, announced Wednesday that the exposition has appropriated \$50,000 for premiums for range and pure bred cattle south of the quarantine line.

This Is Miraculous.

Manhattan, Kans., March 14.—One of the strangest cases that has ever been heard of in Riley Co. is that of the three-year-old daughter of Mr. Jonas Drubaker of this place.

Some time ago the little girl took whooping cough, which was followed by pneumonia. When the pneumonia left her, she was taken down with malaria fever with at times symptoms of Spinal Meningitis. The family doctor brought her safely through these troubles, but after the fever Bright's Disease set in and the doctors gave her up. Her father tells the rest of the story:

"We began to give her Dodd's Kidney Pills and after she had taken about three and a half boxes, she was entirely cured. Now she is well as any child, running and playing as if nothing had ever been the matter with her. The doctors said she was beyond the reach of medicine. Dodd's Kidney Pills certainly saved our little girl's life, when she was so far into the chronic stage of Bright's Disease that we thought nothing could save her."

Fastidious.

"The front porch is dreadfully dirty, Maria."

"Yes, I know. But the new girl says she won't wash it off until her trunk comes."

"And what has her trunk to do with it?"

"She says she always wears her best stockings when she washes porches."

Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period.

"TO YOUNG WOMEN:—I suffered for six years with dysmenorrhea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds.

"If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, that was the only medicine which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment, and was cured a month later. I am like another person since. I am in perfect health, my eyes are brighter, I have added 12 pounds to my weight, my color is good, and I feel light and happy."—Miss AGNES MILLER, 25 Locust Ave., Chicago, Ill.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

"Do It To-Day."

The time-worn injunction, "Never put off 'til to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day!" That is the terse advice we want to give you about that hacking cough or demolishing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boscree's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.—W. T. Brooks.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.—W. T. Brooks.

THRO' KENTUCKY.

Thro' the grand state of Kentucky, Where the "Old Home" got its name, Where the fields are overflowing With the yellow ripening grain.

Here tobacco plants are growing, In the fields not sown with corn, Tobacco plants—big as cactus— Just as sure as you are born.

Yes, they're large as good-sized cactus, Larger in our home-like view, But it's of a fine grade as Is that old "Kentucky Dew."

Here all people reap a harvest, Money in bank from year to year, All the green calanthy howlers, Lose their jobs when they land here.

Here the "dry" ways are the highways, Built high and dry from rains and flood, Here the "good roads" delegation, Swear the roads are suit'nly good.

But of pikes and highways finest, There's a "road" that suits my taste; Tis the line of Solid Comfort, And the trains let no time waste.

From Kentucky to St. Louis, Operates this road of class, Across the famous old "Green River" On its roadbed smooth as glass.

Would you know the road I speak of? Listen then to my advice, For you'll need it in your business, On your trip to Paradise.

In your travels to St. Louis—Hustle; beat them under the wire, "Get the 'Henderson Route' habit" 'Tis a good one to acquire.

THE ARBITRATION BILL.

It Was a Subject of a Hearing Before a House Sub-Committee.

Washington, March 17.—The Foss arbitration bill was the subject of a hearing before a sub-committee of the house committee on labor Wednesday. Fred B. Whitney argued in favor of the measure and presented many letters of indorsement from labor interests as well as from capitalists. He made a request in behalf of Judge Gray, of Delaware, and Bishop Spaulding, of Peoria, both members of the anthracite coal commission, to be heard. The bill was declared to be in line with the recommendations of that commission. Daniel Davenport, of Bridgeport, Ct., representing the anti-boycott association, appeared against the bill. A request to oppose the measure also was made on behalf of the steel interests.

TEXAS ANTI-TRUST LAW.

Suits For Alleged Violations Brought Against Surety Companies.

Austin, Tex., March 17.—Suits for alleged violations of the Texas anti-trust laws were filed by County Attorney Brady under direction of State Attorney General Bell Wednesday afternoon against the United States Fidelity and Deposit Co., of Maryland, and the American Bonding Co., of Baltimore.

It is alleged that the companies have entered into a trust to fix the prices of surety and guaranty bonds. A penalty of \$224,600 is asked from each for this alleged violation.

It is also alleged that defendants are trying to restrict trade, and for this a penalty of \$17,500 is asked from each.

FIRE INSURANCE COMPANIES.

All in This and Foreign Countries Will Form a Combination.

Philadelphia, March 17.—The national board of fire insurance underwriters at a meeting held in New York Wednesday came to an agreement with a committee of 20 representing insurance companies by which all fire insurance companies in this country and all foreign companies represented here will form a combination. Uniform rates, it is said, are to be fixed for the same class of risks in all cities, uniform legislation in all states and cities is to be advocated, and all technical work of all the companies hereafter to be done by a central board instead of local state or city boards, as has been the custom.

SALOONKEEPERS LIABLE.

Important Decision Rendered By the Illinois Appellate Court.

Springfield, Ill., March 17.—The appellate court, in a decision handed down Wednesday, holds that saloonkeepers are liable for the death of their patrons who meet death while under the influence of liquor sold them by the defendants. The case was that of Kate Algood, who was awarded \$3,000 damages against William Botwinis, a saloonkeeper of this city, for the death of her husband, George Algood, who had been drinking in the saloon of Botwinis, and who, while on his way home in an intoxicated condition, fell from his buggy and received injuries which resulted fatally.

DR. SCHELL'S LIBEL SUIT.

A Verdict For \$24,000 Returned in His Favor.

Boston, March 17.—A superior court jury Wednesday returned a verdict in favor of Rev. Dr. E. A. Schell, of Chicago, formerly general secretary of the Epworth League, in his suit for libel against Dr. Charles Parkhurst, editor, and the Boston Wesleyan association, publishers of Zion Herald. The jury fixed the damages at \$24,000. The suit arose over statements printed in Zion's Herald in 1899, regarding the publication of Dr. Schell in collaboration with E. O. Excell, a composer of Chicago, of a sacred song book for the use of the Epworth League.

HELD FOR TRIAL.

The Charge Is Holding a Negro In Involuntary Servitude.

Jackson, Miss., March 17.—United States Marshal Wilson has arrested Iva Henderson and the three Legettes of Kemper county, who are charged with having held Sep Griffin, a Negro, in involuntary servitude and whose sensational attempts at terrorizing their section, were made public several days ago. The four men have been indicted by the federal grand jury and gave bond in the sum of \$25,000 each for their appearance at trial.

Dog Shot His Master.

Houston, Tex., March 17.—Frank Schorer, gunsmith, was killed by a pet dog discharging a Winchester, the bullet entering his abdomen. The gun had been set on the floor cocked and the dog playfully put a foot on the trigger, springing it.

Tom Loftus Reappointed.

Washington, March 17.—Tom Loftus, the manager of the Washington baseball club for the past two years, has been appointed to that position again for the coming season. This announcement was made by President Ban Johnson.

Instructed For Roosevelt.

Mankato, Minn., March 17.—Gustav Widell, of Mankato, and H. C. Grass, of Slayton, were elected delegates to the Chicago convention by the republican second district convention. They were instructed for Roosevelt.

FIFTY-EIGHTH CONGRESS.

Regular Session.

Washington, March 15.—Senate—The fortification appropriation bill was before the senate all day, the provision for the purchase of a submarine boat of a designated type taking up the entire session. The chair overruled a point of order made against the provision and then followed discussion on its merits. It was favored by Messrs. Perkins, Cockrell, Platt (Ct.), Wann and Proctor, while Messrs. Daniel, Martin, Berry, Gallinger, Lodge and Mally opposed the senate entering into experiments with submarine boats and usurping what they alleged to be a naval function.

House—Legislation for the District of Columbia and the post office appropriation bill occupied the attention of the house. The rural free delivery service received most attention. Credit for the establishment of this service was claimed by speakers for both parties and both sides declared their friendship for it. Mr. Patterson (Tenn.) suggested Mr. Williams, the minority floor leader, for the presidency, but he also coupled it with the names of Carlisle and Senator Bailey (Tex.) as good southern candidates. Messrs. Douglas and Suler (N. Y.) spoke on the New York post office problem, the former favoring a downtown site and the latter the Pennsylvania railroad station site.

Washington, March 16.—Senate—The senate passed the fortification appropriation bill Tuesday after a three hours' debate of the amendment authorizing the purchase of an experimental torpedo boat and the provision for the purchase of sites of defense works in the Hawaiian Islands. The torpedo boat provision was stubbornly fought, but the amendment suggested by the committee on appropriations was retained. The Hawaiian provision which had been eliminated by the committee was restored and the sum increased from \$200,000, as fixed by the house, to \$525,100. Several other bills were passed. One of these appropriations, \$1,000,000, is for a public building at Atlanta, Ga.

House—During the discussion of the post office appropriation bill in the house the recent report of the post office department regarding congressional solicitation of clerk hire allowances and rental of quarters to the government was again brought up. Mr. Griggs (Ga.) got into an argument with Mr. Cooper (Wis.) as to the authority of the document and insisted, over the protest of Mr. Cooper, that it was prepared under the direction of Gen. Brewster. He defended the committee of which he is a member, in giving publicity to the report, saying that the United States is too powerful and too great to convict any man by a suppression of the facts. Mr. Burton (O.) delivered a carefully prepared speech on the question of increases in national expenditures and warned the house against extravagance. Under the latitude of debate Mr. Rucker (Md.) attacked the protective tariff system of the republican party, while Mr. Fitzgerald (N. Y.) discussed labor legislation and the decision of Judge Alton B. Parker on labor questions. The right of the president of the United States to utilize the yachts, Mayflower and Sylph, was questioned by Mr. Cochran (Mo.), who argued that there was no authority or law for it.

Washington, March 17.—Senate—Another entire day of the senate was devoted to consideration, in executive session, of the nomination of Gen. Leonard Wood to be major general. Senator Blackburn, resuming his speech, occupied a little more than two hours and was followed by Senator Quarles, who consumed the balance of the day and expects to take another hour Thursday. It is predicted now that a vote will be reached before adjournment Friday. In addition to the set speeches which will be made by Senators Teller and Foraker, Senator Alger, formerly secretary of war, will take 15 or 20 minutes in defense of Gen. Wood's executive ability. He will speak from a personal point of view.

House—Subsides to railroads for special mail facilities came in for considerable criticism by Mr. Robinson (Ind.) and Mr. Gaines (Tenn.), the latter characterizing them as a "legalized steal." Rural mail carriers found many friends on the floor, who advocated increased pay for them and the privilege of acting as agents for newspapers and trades people. Mr. Flood (Va.) denied that Perry S. Heath was entitled to credit for inaugurating rural free delivery. He said Heath made the claim, "notwithstanding the fact that he had not emerged from the postal scandal with a name as unsullied as the Alpine snows thrice bleached by northern blasts."

POSTMASTER GENERAL ILL.

Mr. Payne Is in An Exceedingly Weak Condition.

Washington, March 17.—Postmaster General Payne is ill. That Mr. Payne is in an extremely weak state is known among his close friends, and he is being carefully guarded against any form of excitement. He has been unable to leave his bed for almost ten days and has had considerable difficulty in taking nourishment, but he is gradually improving in this respect. Mr. Payne normally is never strong and has been very ill on a number of occasions but heretofore has rallied quickly. He chafes considerably under the restraint of his medical treatment and becomes depressed in spirit.

Colombian Legation Closed.

AMUSEMENTS.

"LAST DAYS OF POMPEII." The above production will appear at the Paris Grand, Friday night, under the auspices of Garth Lodge, A. O. U. W.

At the final dramatic scene in the play, Arbaces, the Egyptian, is thrown into the arena, with a howling mob of 200 people shouting, "Let forth the lion." The custom of the Romans demanded the execution of a criminal, by being thrown into the arena unarmed, and a victim of the lion. In this scene of the play, the order is given; the iron bars of the cage swing open; a large, ferocious lion springs into the arena, confronting the unarmed Egyptian; for a moment the audience is breathless at the appalling sight. The Egyptian stands firm. Slowly the lion turns and retreats into the cage and the Egyptian is safe. The people shout, "A miracle a miracle!" The Egyptian is saved by the "gift of the evil eye." The scene is historic. Hypnotism was evidently understood and used by the ancient. The explanation of the power of Arbaces. Seats on sale at Borland's. Prices, 25, 50, 75 and \$1.

CALIB POWERS denies a printed report that he will seek through friends to have Gov. Beckham commute his sentence from death to life imprisonment.

J. W. BEES, who has been on trial for the murdering of Mrs. Martha Martin, a widow, at Lexington, has been found guilty and sentenced to be hanged.

"Ohio is after Berea College," says the Courier-Journal. Then don't get in the way, for God's sake. That is one thing we are willing for Ohio to get.—Fairview Review.

THERE is a probability that friends of Caleb Powers may soon make an appeal to Gov. Beckham to commute his death to imprisonment. A petition is now circulating in the eastern part of the State.

The Louisville Times, says: "The House having concurred in the Senate's view that chicken stealing is a felony, there is no longer any necessity for imposing an educational qualification to deprive the negro of the right of suffrage."

A POLICE officer at Port Arthur has committed suicide because he failed to get the better of the newspaper correspondents. If the fellow hadn't been a Russian, he would never have tackled the job, much less have had his feelings hurt when he failed to turn the tricks.—Louisville Times.

The Republican State Convention will be held in Louisville, May 3. The basis of representation will be one delegate for each 100 votes at the National election of 1900. The State Central Committee, which met in Louisville, Wednesday, decided to ignore the new counties of Beckham and Thorne, in spite of a protest from citizens of Beckham county.

The Hartford Herald says that the true Democratic newspaper these days is the one that assumes a receptive attitude in regard to the presidential situation. Any faithful Democrat that is nominated at St. Louis upon a progressive platform should be acceptable to all Democrats. Post-convention utterances of a rebellion or intolerant spirit are not only ill-advised but positively destructive to that party harmony which should prevail.

A LARGE number of people from West Kentucky have joined the vast, restless throng that is going west to "grow up with the country," and a great many of them are coming back, thoroughly imbued with the idea that Kentucky is good enough. It is truly pitiful to see a farmer sell everything he has and start for the boundless west without the slightest idea as to where he is going or what he is doing. Sometimes they make it all right, but generally wind up with a home-sickness that is pitiful and an empty purse.—Paducah Register.

THE DANVILLE ADVOCATE, in speaking of the "race trouble," at Springfield, Ohio, says: And now it comes to pass that a poor negro, who got into a fight with a policeman at Springfield, O., and killed said policeman in said fight, was taken out of the jail in that city and mobbed to death by one thousand of the citizens of that enlightened (?) town, the officers of the law yielding to the demands of the mob after a small show of resistance. Now if Ohio wants to mob negroes, of course this is their right (?), but what we enter our solemn protest against is this: They have no right to mob one of our negroes. The papers all say he was a Kentucky negro. Now we reserve the right to kill our own negroes if they do anything for which they should die.

Verdict for Mrs. Gregg.

A dispatch from Crawfordville, Ind., on Tuesday, says:

"This morning at 10 o'clock a wild burst of applause from the room in which the jury in the Gregg damage suit had been in conference since 6 o'clock last night announced to those waiting in the court room that a verdict had been reached. A few minutes later the jury was brought in and the following verdict was read:

"We, the jury, find for the plaintiff and assess her damages at \$3,000."

"Neither the plaintiff nor the defendant was present when the verdict was read, the defendant being confined to her home by illness. The jury was dismissed and no secret was made of its deliberations. On the first ballot the vote was 10 to 2 for the plaintiff. Jurymen Sutton and Murphy voting for the defendant. On the second ballot all declared for the plaintiff, and from that time on it was a contest as to the amount of damages.

"On the first ballot four jurymen voted for \$10,000 and two for \$500. On the next ballot the four voting for \$10,000 voted for \$5,000, and from that time on until a verdict was finally reached each dollar was contested.

"The defendant's attorneys announced that they will ask for a new trial, and if refused will appeal to the Supreme Court, fighting the case to the end.

"George Gregg was present when the verdict was read, and received it with a smile, roundly charging it as an outrage.

"Albert S. Miller, an uncle by marriage of the plaintiff, Mrs. June Gregg, was also present, and took occasion to thank each jurymen personally on behalf of the plaintiff.

"The damage suit was brought by Mrs. June Gregg, the divorced wife of George Gregg, who charged that Mrs. Sarah Gregg, mother of the husband, had alienated his affections from his wife. Mrs. June Gregg asked for \$10,000 damages. The case was on trial for four weeks and the arguments occupied one week."

World's Fair March, 1904.

Mr. John C. Weber, director of Weber's Military Band of Cincinnati, known as the "Prize Band of America," has composed the St. Louis World's Fair March 1904—and dedicated it to the Louisiana Purchase Exposition. It will be distributed through the passenger department of the B. & O. S-W. R. R., World's Fair Route, at 10 cents per copy.

The music is in sheet form, arranged for the piano, being very handsomely gotten up, with highly illuminated title cover. Mr. John C. Weber is not only a great Musical Director, but he has written some very catchy and popular marches. The St. Louis World's Fair March is his latest success, and will add further to his fame.

Mr. Weber and his great organization of artists has twice defeated all comers in national contests at Elks' Reunions. The latest triumph was at Baltimore, Md., on the 21st of last July, when, in a notable contest, composed of the leading bands of America, won the first prize of \$1,000. It is confidently expected that Mr. Weber's World's Fair March will become a popular air during the next year, and every household should have a copy of this music.

Send 10 cents in silver to the undersigned and copy of the World's Fair March will be mailed to your address.

OPINION OF THE EDITOR OF "NEBRASKA FARMER".

He Expresses His Approval of Amer- ican Immigration to Canada.

During the Winter months the head of the family consults with the other members as to the prospects for the future, and doubtless one of the most interesting topics discussed is that of moving to some district where it is possible to more easily secure what is necessary for a comfortable existence; where it is an easy matter to become possessed of sufficient farm land to assure a competence for the future. This, not only interests the head of the family but every individual member of it.

Having before me the knowledge where he can secure a home with the expenditure of but little money, it is well for him to obtain all information possible regarding the productiveness of the land in the country that he may select. For several years past a large number of Americans have removed to Western Canada and as nearly as it can be ascertained almost all of these have expressed themselves satisfied with the conditions that exist there. During the past Summer a number of the Editors of Farm papers throughout the United States made a personal visit on a tour of inspection and the reports of these gentlemen prove interesting reading. Mr. H. E. Heath, Editor of the "Nebraska Farmer," a paper enjoying a wide circulation as well as the confidence of its subscribers, after giving some idea of the extent of this wonderful country says: "Western Canada is the last unoccupied and unimproved good agricultural land in America available to-day."

He then discusses its possibilities for raising live stock and the advantages it possesses for dairying, farming and wheat growing, and says: "What has been said about the country as to the ability of the soil, the 'yield of wonderful crops of wheat, is quite justified."

To quote further from Mr. Heath, he says, referring to climate:

"These people (skeptical ones) do not know or realize that altitude more than latitude makes climates; that 'large bodies of water, both fresh and salt, that never freeze over, exert a wonderful influence on climate. Another influence on climate, more potent than those named above, which 'applies more to the Alberta district, 'is the warm Chinook breeze from the Pacific Ocean, which is 600 or 700 miles nearer than Colorado or Wyoming, besides the Rocky Mountain range is not nearly so high nor half so far from the ocean as it is down in the States."

"In further considering the climate 'of the Canadian prairies, we should not lose sight of the fact of the influence of the rains; the total average rainfall for the season is . but 13.35 inches for the territories, and 17.34 inches in Manitoba, and that the 'amounts falling between April 1st and October 1st are respectively 9.39 inches and 12.87 inches, or about 'three-fourths of the entire rainfall."

"From the middle of June to the middle of July there are over two hours 'more daylight in every twenty-four hours than there is in Nebraska. The 'main reason why Western Canada 'wheat grows to such perfection is the 'effect of solar light, or longer period 'of sunshine it gets each day. This 'is what makes seeds or grain more 'perfect, grown in this country than 'elsewhere. This extraordinary rapid 'growth of vegetation under the influence of this long continued sunshine exceeds anything known in lower latitudes."

"We do not wish it understood that 'wheat alone is the main product of 'this country; it leads in that, yet it 'is destined to become famous for its 'cattle, horses and sheep and for its 'dairy products. We saw more and 'larger bands of cattle and sheep grazing in Assiniboia and Alberta than 'we ever saw on the western plains of 'the United States. One band of cattle numbering 5,000 head were grazing on the rich grass and sheep without number."

The Government of the Dominion of Canada is still using the same energetic efforts which have been used for the past 5 or 6 years to settle up these western prairies, and on application to any Agent of the Canadian Government the settler will be able to secure a certificate entitling him to a low rate which will give him the opportunity of visiting any portion of Canada's grain producing domain.

PROPOSED TO A SENATOR.

Lonely Widow Makes Plea for Position of Sacred Trust in Frank Manner.

One western senator, whose name was mentioned in a recent list of eligible widowers and bachelors of the senate, has received an application from the state of Kansas. The lady puts the marital proposition in a very frank manner, all of which she probably justifies because this is leap year, says a Washington exchange. She writes:

"Dear Senator—I read you are one of the widowers of the senate who would be next to get married."

"Now, I write you this to ask you, if you are not engaged to any lady, if you would consider myself as a candidate for that sacred trust. I am a widow, 56 years old, and as fond of a good and loving husband, one I could love and trust. I find life too lonesome to live without a good man."

"You may think this very impertinent in me to write you, but I assure you I am no adventuress, only one who is so lonely, and there are no eligible men in this town."

"I will wait with patience your answer; then I will tell you more of myself and who I am."

The senator's response to this tender missive was written by his secretary, who is an unfeeling man and fully capable of slamming the door in the face of hope.

Just as you are pleased at finding fault, you are displeased at finding perfection. —Lavater.

FROM HOME ACRES.

A sense of pureness in the air.
Of wholesome life in growing things.
Trembling of blossom, blade and wing.
Perfume and beauty everywhere—
Skies, trees, the grass, the very loam,
I love them all; this is our home.

Million on million years have sped
To frame green fields and bowing hills:
The mortal for a moment tills
His span of earth, then he is dead:
This knows he well, yet doth he hold
His paradise like miser's gold.

I would be nobler than to clutch
My little world with gloating grasp;
Now, while I live, my hands unclasp,
Or let me hold it not so much
For my own joy as for the good
Of all the gentle brotherhood.

And as the seasons move in leath,
Of bloom and bird, of snow and leaf,
May my calm spirit rise from grief
In solace of the lovely earth:
And though the land be dark or lit,
Let me but gather songs from it.

JOHN DREW shut the stable door with a bang that made Bess, the gray mare, snort in her stall. "There they are again!" he growled, as he got a glimpse of a dainty form in white muslin through the shrubbery across the way, and heard a hearty masculine laugh. "They're playing croquet, and he's stepping round in his patent-leather shoes and high collar putting on all his fine airs, and she's comparing him to me. I saw her look at my shoes and then at his when I called for my Sunday, and she hinted that I'd better send my collars to the steam laundry instead of letting mother do 'em up."

Two hours later, John crossed the road in the gathering darkness, and started up the path to Mamie's home. "I used to like to call for Mamie, but now it's worse than pulling teeth, with that dandy looking at me as if I'd just come out of the ark," he said.

In a moment the sound of singing reached his ears, and he paused to listen. "Yes, they are singing together. She never would sing with me; said I couldn't keep in tune," he added, bitterly.

Going round to the window, John looked in. Mamie was seated at the organ, and Mr. de Pledge was standing beside her turning the music. Once he stooped so low to look at the sheet that John saw sure Mamie's yellow curls touched his cheek. With an oath the jealous lover turned away and strode blindly across the flower beds and out to the road. Then he suddenly stopped as if possessed of a new idea. "He sha'n't have her, curse him! I'll teach him to come between me and Mamie." And he hurried off to his own house. In a few minutes he appeared at the back door with a saw under his arm, looked cautiously about, and then slipped along in the shadow of the fence till he disappeared among the maples in the direction of the reservoir.

"If you care to, you may take my easel and try another sketch this morning, Miss Payzant; I've got to run up to the city. You do wonders, considering how little I've shown you. I wish you'd try those gnarled old trees in the ravine below the reservoir; they are so picturesque."

"Oh, thank you, Mr. de Pledge. It's so kind of you! When do you think the light will be best?"

"This morning, I think. I've been working there myself every morning for a week, and I've found the light at its best about ten."

"Then I must hurry off, for it's after nine now." And Mamie bustled about and finished her morning's work, and was soon on her way to the ravine.

"Willow Gap," as the ravine was called, was a deep cut through a hill, made by the ceaseless wear of a brook which emptied into the river beyond. Willows with gnarled roots clutching at the stream flourished in this deep recess, which, since the two great reservoirs had been built above it for the town's supply of water, was almost dry through the summer months.

Mamie was hardly out of the house before Louis de Pledge, the young artist who had come up from New York in search of a few weeks' quiet in the country and was boarding with the Payzants, started for the railway station. Seeing that he was likely to miss his train if he went round by the road, he decided to take a short cut over the hill past the reservoirs. As he approached the upper reservoir he saw something flash in the sunlight at the end of the sluice, and, looking more closely, saw a hand gripping something bright disappear behind a projecting buttress. In a moment there was a crash, as the timbers which supported the massive gate of the sluice gave way; the water came through with a mad plunge, and at the same time John Drew leapt nimbly up to safety, the saw with which he had done the dastardly deed still in his hand. He wheeled suddenly round, and when his eyes rested upon the artist they seemed to start from their sockets.

"You here?" he asked in a husky voice. "I thought I saw your easel down in the ravine a minute ago."

"Very likely," replied de Pledge, eyeing the ruined sluice, through which the water was now thundering into the lower reservoir. "Miss Payzant took my easel a few minutes ago, and has gone to the ravine to do some sketching."

"I've cut the timbers in the lower sluice!" exclaimed John Drew, and dashed down the slope toward the ravine. He had not gone five rods before the weakened gate gave way, and

with a deafening roar the water poured into the ravine.

For a moment Louis de Pledge stood in blank astonishment, thinking Drew mad. Then, as the horrible truth dawned upon him, he sped away after the retreating figure.

When the artist arrived at the ravine it was a seething mass of water which bore down everything before it. The willows were wrenched up by the roots and swept along in one mad jumble of swaying, snapping branches whitened with foam.

John Drew was running up and down the shore, waving his hands like a madman. "I've drowned her! I've drowned her!" he kept shouting. Then his eyes rested upon de Pledge. "It was you, you hound! that I meant to drown for trying to take my Mamie away from me." And, seizing the artist about the waist, he tossed him into the middle of the tumbling waters.

When Louis de Pledge opened his eyes he was lying on a sandy beach. His head throbbled so badly that at first he could not think; then, as he saw a twisted willow branch near him, it all came back to him. In the distance was the high ridge crowned with maples, where he had discovered John Drew at his insane deed. Getting up, he stretched his stiffened limbs, and, to his great surprise, found that he was not disabled. Evidently the mad rush of water had swept him out to this little island in the middle of the river.

Passing round a headland, he noticed a patch of white on the sand, and, hurrying forward, saw a dainty shoe protruding from under a white skirt. Hastily putting away the debris which covered the body, he discovered Mamie Payzant, her hands still clutching the easel.

"The fiend! to murder an innocent girl," he exclaimed, taking her up tenderly. "If he isn't hanged, it won't be the fault of Louis de Pledge." And he carried his burden up to a grassy slope and was about to lay her down, when he thought that he saw one of the eyelids quiver. For the next hour he worked as he had never worked before, trying every device he had ever heard of for saving life under similar conditions, and at last Mamie sighed, opened her eyes, and said: "Why didn't you come, John?" and then closed them again.

"The inhuman wretch!" hissed de Pledge. "And she really loves him, I believe."

Presently Mamie opened her eyes again, and looked wonderingly about her. "Why, it's you, Mr. de Pledge?" she said, in astonishment, starting to her feet. "What am I doing here?" Then she looked at the dilapidated easel. "Oh, I remember now. The reservoir broke and I was carried away by the water. Oh, it was dreadful!"

For a moment Louis de Pledge looked at the pretty face with its tempting lips, and was half inclined to take the harmless flirtation of the past few weeks seriously, and tell her that he loved her; but the memory of a girl in New York who was trusting him and waiting for his return, brought him to his senses. "They have seen us from the shore," he said, "and they are shoving off a boat." As they stood upon the beach waiting for deliverance, he noticed the end of a freshly sawn piece of timber lying at his feet, and at sight of it his anger at John Drew flamed up afresh. He was just about to denounce the man's cowardly deed to Mamie, when she exclaimed: "Oh, there's John in the boat, too!" And the next moment she blushed so prettily that he quietly shoved the tell-tale piece of timber adrift.

"Such a narrow escape!" he began, hurriedly, as the boat, propelled by John Drew and a neighbor, approached the shore. "The reservoir broke and washed us both out here. It's a thousand wonders we weren't crushed to death, not to speak of drowning. Here is Miss Payzant, Mr. Drew, all safe and sound. You ought to be entitled to a kiss after such a miraculous escape. Come, we'll all turn our backs."

For a moment John Drew gazed at the speaker in speechless wonder. Was he mocking him? Surely he meant to denounce him to the police as soon as they landed. Then an inkling of the truth penetrated his slow brain, and, climbing sheepishly out of the boat and blushing furiously, he took Mamie in his arms and kissed her.

"I think I must be going back to town this afternoon, Miss Payzant," said Louis de Pledge at breakfast the next morning. "I've spent a delightful month, and I shall always remember 'Willow Gap.'"

"I wish you could stay another week, Mr. de Pledge; because John and I would like to have you—for the best man," she added, looking him squarely in the eyes. "I'm sure I feel highly flattered, Miss Payzant, and should be delighted; but I really can't stay another day. I sha'n't forget you, though."

And he didn't. For a beautiful oil painting of "Willow Gap," as it was before it was laid in ruins, now adorns the mantel of Mrs. John Drew's parlor.

Curious Tattooing Custom.

The Turkana tribesmen, of Africa, are said to have a curious system of tattooing by which one can tell the number of people a man has killed. When the body is covered with marks from the shoulder to the waist the warrior continues the record on the bodies of his wives.

Our People on Deck.

The American physician who has been decorated in Paris with the cross of the Legion of Honor only shows the stuff he is made of by winning it. Decorations don't count in this country, remarks the Pittsburg Dispatch, but if they did they would all come to Americans.

RESTORED TO HEALTH.

Many weak, suffering women do not know that their kidneys are sick. Backache tells of sick kidneys and so do urinary disorders. Sick kidneys make bad blood, and bad blood makes bad digestion, heart palpitation, dizzy headaches, nervousness, sleeplessness, scatic, rheumatic pains and constant depression.

Can't be restored to health until the kidneys are cured. Read how one woman was restored by using Doan's Kidney Pills:

Mrs. H. A. Van Sickle, 311 6th Ave., S. W., Roanoke, Va., says: "Kidney trouble was hereditary in our family and I had been so continually afflicted with the disease that I began to despair of even temporary relief. Sometimes I suffered so severely that I was confined to my bed. The aching in my back was intense and the kidney disorder caused an excess of uric acid in my blood which impaired my digestion. I was compelled to deny myself of many of the little delicacies of diet. The doctors diagnosed my case as congestion of the kidneys. I had about given up hope when I began using Doan's Kidney Pills, but I took only a few doses when their curative powers were proven to my satisfaction. I have never been without them in the house since."

Doan's Kidney Pills are sold by all dealers; price, 50 cents; or mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Write for free trial.

CONDITIONS IN VERA CRUZ

Information Concerning Climate, Soil, Crops and Prices of Land in the State.

The idea seems to erroneously prevail in the United States that all the Mexican Gulf ports are sickly and pestilential, especially during the summer season; this is far from being the case. The coast littoral naturally is warm, but is not unhealthy if ordinary precautions are adopted to avoid marshy or malarial districts. On the coast there are two seasons, the rainy and the dry; the former commences in June and lasts until October. During this period the heat is greatly tempered by refreshing breezes. The dry season, which is the winter here, from October to April, has an ideal temperature, resembling our month of May in the United States, but more uniform and balmy.

The prevailing diseases are of a mild malarial type, easily avoided by following simple rules of living and avoiding unnecessary exposure to heat and rain. About 30 miles from the coast the altitude is from 600 to 800 feet above the sea, and in this region the climate is exceptionally agreeable. Here, as elsewhere, one is exposed to sickness, but if the common laws of health are observed one will experience no greater amount of illness than he would in his own country and live just as long, if not longer.

The mean annual temperature is 75 degrees Fahrenheit. The heat in summer ranges from 80 to 90 degrees Fahrenheit, and occasionally 95 degrees Fahrenheit; in winter, from 55 to 75 degrees Fahrenheit, and occasionally 55 degrees Fahrenheit.

The lands in this part of the state of Vera Cruz are exceedingly fertile and will yield two crops easily during the year, the soil in most instances being a rich, alluvial loam, several feet deep, and apparently inexhaustible. It is adapted to all kinds of agricultural pursuits, including nearly all the vegetables produced in northern latitudes. As regards grazing lands they excel those of other localities in this republic, being especially suited for the raising of stock, as they produce an abundance of nutritious grass, and numerous sweet-water streams are found in all directions. Prices of land are still reasonable—five to ten dollars Mexican (two to four dollars United States)—per acre, but will no doubt soon advance when the railroad and canal now under way reach this place.

GERMAN-AMERICAN TREATY

Little Prospect of an Agreement on Commercial Basis Between the Countries.

Mining Councilor Gotheim, a member of the German parliament, at a public meeting of the Frankfurt association for commercial treaties, held recently, expressed the opinion that there is little prospect for a treaty between Germany and the United States. The greatest danger, he thought, is that the United States will continue to enjoy the privileges accorded to other countries between 1891 and 1894 should the new commercial treaties raise the customs duties for the contracting countries.

He expressed the opinion that no country, under the circumstances, would be ready for new treaties, and nothing else remains to be done but to give timely notice to discontinue the most-favored-nation clause in the treaty with the United States.

In view of the great hostility of the German agrarians against the United States, it would require all the possible pressure of commercial circles to avoid, in the absence of a treaty, a tariff war with that country.

American exports to Germany consist of raw materials and agricultural machinery, while the German exports to the United States consist of manufactured goods of high value. It is therefore evident who would run the greatest risk. It must also be taken into consideration that the passenger traffic across the Atlantic in recent times has been more and more monopolized by Germany, and to the great German ocean transportation companies a tariff war with the United States would mean tremendous injury.

Our Provisions in Bogota.

I have received a number of inquiries lately as to American hams, flour, petroleum, preserves, pickles, butter, etc., particularly from Mr. Leopoldo Molina, who is desirous of starting a large wholesale and retail grocery store and wants catalogues, prices and general information on these and other similar articles. I am informed that he has a good standing and is fully able to conduct such a business on a large scale, and under ordinary circumstances this place would certainly support it.

SEEN IN STORE WINDOWS.

Small fans that, closed, resemble beasts, birds and flowers are seen in the shops.

In leather goods a soft gray-black exactly matching the gun metal trimmings is popular.

Small handkerchiefs of Japanese silk that are shown have colored centers, buff, gray and blue borders having corded stripes.

Golden brown, in combination with deep cream lace or a touch of gold trimming, continues the favorite color for receptions and afternoon wear generally.

A beautiful metal belt shown in one of the shops is made of a row of antique-looking coins, held together by heavy silver chains. Several of the heavier and larger coins fall below the belt in front in sort of chateaux effect.

The differences between Russia and Japan have stimulated interest in these countries, and the shops are having special exhibits of goods peculiar to these places. One shop is showing a splendid line of Japanese art goods of all descriptions. They include not only beautiful embroidered goods, potteries and chinaware, but also materials both silks and cotton that are made in that country.

CLEANED HERE AND THERE.

Important physiological experiments have been made in Russia to test the endurance of school children.

A temperature of 60 degrees to 80 degrees F. is not dangerous to human beings who are adequately clothed, if the air is still, while 30 to 40 degrees higher, if accompanied by a gale of wind, would kill every living thing before it. Very low temperatures almost invariably coincide with perfect atmospheric quiet.

Aluminum becomes granular and brittle when heated to about 600 degrees C.; at a slightly increased temperature it becomes so soft that it can easily be cut with a knife. Hence all that is needed in order to pulverize it is to heat it to the above-mentioned temperature and then pound it in a mortar. With zinc, a similar treatment will give the same result.

ART OF CONVERSATION.

Dwell upon bright subjects, clever jokes and pleasant experiences.

Avoid gloomy matter topics. Speak of those things that bring mirth, cheer, smiles.

Be wary of comparing people with others unless the comparison will carry a compliment.

Do not ventilate any personal vexation or trouble. The dwelling on it, as you must to relate it, only emphasizes it. It turns the question into one of self-hypnotism. If you cannot speak about your illness or misfortune you will be forced to speak of something else. This gives you one less chance to think about the misfortune, and gradually time will ease the physical or mental pain.

Avoid the statements that must have been made before your birth by every one who had discussed the same topic. For example, do not, when you meet an actor, ask him if he does not get tired of saying the same things every night. Each woman he has met has asked him that question since he has been on the stage. If a person has a name that lends itself to puns the chances are every possible pun has been already thrust upon the unfortunate possessor.

He Didn't Have to Prove It.

The other day a stranger stepped off the train at Hopkins and said to a man on the depot platform: "Can you tell me who is the best lawyer in this town?" "I am," replied the man on the platform, without hesitation. The stranger seemed somewhat disconcerted by this display of egotism and gently said: "Excuse me, sir, but I should like to know you prove it." "Don't have to prove it, sir," answered the man on the platform. "I admit it. I am the only lawyer in the town sir." And immediately the stranger got a lawyer and the lawyer got a client.—Kansas City Journal.

Interesting Norwegian Custom. Men attending state balls in Norway are not left in doubt as to whether or not the women can be counted on for dancing. The custom of the court decrees that those women who intend to dance shall wear white, while those not desiring to trip the light fantastic too shall appear in black. It is an idea which American men would like to see adopted.

A Hard Problem. A certain debating society is discussing the question as to which is the angrier—the husband who goes home and finds that the dinner is not ready or the wife who has dinner ready and whose husband does not come home. It is believed that the debate will end in a draw.

During odd moments when not engaged in his duties as a "plain clothes" detective Patrolman Robert H. Hibbard, of New York city, found time to study law with such success that he retired from the force recently and will at once take up the practice of his profession. Hibbard is an LL. B., having completed courses in the New York university law school and the New York Law school. He was admitted to the bar in July, after serving eight years as a policeman.

Mercury-Vapor Lamps.

Mercury-vapor lamps produce a light, as is well known, that is greenish blue in color, and which produces an unpleasant effect, not inaptly described as "ghastly," on the faces of persons illuminated by it. This is because the spectrum of the light has no red in it. It has been proposed to add a red reflector or globe to correct this, but the experiment shows that the light is not changed in color, but obstructed.

When It Is Ready to Bake.

Bread is ready for the oven if, when touched with the finger, the dough springs back, leaving no dent. The old theory that bread must be kneaded stiff with flour in order to be good is not altogether reliable. It is much easier to work if mixed soft, rises quicker and is just as delicious as if made the old way.

Precocious Children.

John Stuart Mill was studying Greek at three, had practically mastered the language at seven, and a year later was acting as schoolmaster to his younger brothers and sisters. John Ruskin actually produced a manuscript work in three volumes before he reached his seventh birthday.

"O, I guess not," replied Brisbane. "He buys stocks."—Detroit Free Press.

FOR JUDGE OF COURT OF APPEALS.

TO THE VOTERS OF THE FIFTH APPELLATE COURT OF KENTUCKY:—I am a candidate for Judge of the Court of Appeals from this District, subject to the action of the Democratic party. As Circuit Judge, it became my duty to try a number of criminal cases, which have become a part of the State's history and at a most critical time. As Judge of the State Fiscal Court, it fell to my lot to construe the Statutes adopted, to put in force the provisions of the new Constitution, as well as to construe the present Constitution whenever a controversy arose as to its proper construction. Almost innumerable cases have hardened the dockets of my court, touching the rights of corporations and the exercise of franchise under law. How well I have discharged my duties under such trying circumstances, is left to you to determine.

I will be very grateful to all who feel they can assist me to secure the high position and office to which I aspire.

Very respectfully,
JAMES E. CANTRILL.
